WEPs Merchandise

The WEPs button badges are a great way to raise visibility of the WEPs. Consider making an online order with the President's Office for your WEPs event.

BPW key people

In 2010 President Benham invited Vice President Freda Miriklis to chair the WEPs Taskforce and appointed the following members. Each region has a member on the taskforce. These members have been chosen because they have significant contacts in government, private sector and industry associations and may be of assistance. Please contact them. Meet your WEPs Regional BPW Representative:

The partnership between UNIFEM (part of UN Women) and UN Global Compact produced the WEPs and is responsible for their content and the global programme that is engaging a range of stakeholders to adopt the seven Principles and work in various ways to integrate them into policies and programmes with the end result of advancing women in the workplace, marketplace and community.

To work together successfully, the UN Women and UNGC role and responsibility must be appropriately positioned and certain key organizing approaches must be maintained. The Collaboration Note provides guidance for Affiliates and provides the essential language and visual that must be used in public and private materials to provide clarity and position the WEPs in the context that:

- Aligns with the UN Women/UNGC global initiative and messages,
- Connects UN Women regional and country offices, UNGC local networks and others in the UN system
- Opens consultation with women's organizations and civil society, and
- Assures Governments and funders that the linkages are clear and coherent helping to leverage their participation.

Please read the following Guidance Points as listed in the *Collaboration Note: Guidance for Supporting Organisations*.

Guidance notes for BPW clubs & federations

A. Required Language for All Public and Organizational Communications

The paragraph below should be used at the outset of any communication about the WEPs to introduce them in a standard way and position the initiative with UN Women and UNGC and highlight the BPW Affiliate/Associate Club's endorsement and commitment.

The Women's Empowerment Principles – Equality Means Business is a partnership initiative of UNIFEM (part of UN Women) and the UN Global Compact. It encourages engagement with the private sector, non-governmental organizations, the United Nations and governments to advance and empower women in the workplace, marketplace and community. While designed as a tool for the private sector to strengthen and create company policies and programmes to achieve gender equality, these seven principles provide a platform for all stakeholders to move their commitments to gender equality closer to implementation. The principles emphasize the business case for corporate action to promote gender equality and women's empowerment, and are informed by real-life business practices and input gathered from across the globe. As a global organization of business and professional women, BPW International endorses the WEPs and has made their promotion and realization a top organizational priority.

The following paragraphs need to be used in any project proposal, position paper or brief that asks for support—whether funds or partnership, or communicates the programmatic approach or content that a WEPs-BPW Affiliate/Associate Club envisions or plans.

Recognizing that the WEPs are a joint product of UNIFEM (part of UN Women) and the UN Global compact, the
United Nations entities responsible for their content and that provide the gender and international expertise for
the creation and dissemination of information and appropriate tools,(name of BPW
Affiliate/Associate Club) agrees to work closely and collaborate with UNIFEM and UNGC on outreach strategies
and communications, resource mobilization and production of WEP-related materials and, consistent with the
WEPs approach of inclusion,(the BPW Affiliate/Associate Club) is committed to consulting
with all stakeholders.
Projects designed to implement the WEPs will encourage business and government to adopt the seven
principles that have been developed to maximize women's economic participation at all levels of economic
activity, particularly critical to reach marginalized and disadvantaged individuals, and will be executed in
partnership with UNIFEM (part of UN Women) and UN Global Compact. All stakeholders engaged in any
project, including(name of BPW Affiliate/Associate Club), will also work closely with
UNIFEM and UNGC, including their regional and national offices and local networks.
